### Client Requirements

The Pear Tree, a well-established local pub in Leicestershire, required a kitchen refurbishment to improve hygiene and durability. After the installation of hygienic wall cladding, Zenith Contract Services was tasked with completing the flooring, ensuring it met high standards for food preparation environments.

### Project Overview & Solution Provided

Zenith Contract Services carried out a full kitchen floor refurbishment, ensuring a seamless, easy-to-clean surface. The process included:

Further details can be found on the following page.

- **Surface Preparation:**

The existing floor was thoroughly prepared using handheld diamond grinding equipment, creating a sound mechanical key for optimal adhesion. All grinding was carried out under vacuum control to minimise contamination in the surrounding area.

- **Priming & Installation:**

The floor was primed using KDR Epo Prime, followed by the application of KDR Polyfloor at a 6mm thickness.

- **Coving Installation:**

To enhance hygiene and ease of maintenance, a 100mm high radius coved skirting was installed using KDR Polycove, creating a smooth transition between the floor and walls.

### Key Benefits

- **Hygienic & Easy to Clean:**

The seamless finish prevents dirt and bacteria build-up, ensuring compliance with food safety standards.

- **Hard-Wearing & Durable:**

The robust resin-based system is designed to withstand high foot traffic and regular cleaning.

- **Aesthetic & Functional:**

The completed flooring and coving provided a professional, high-quality finish, enhancing the overall kitchen environment.

### Outcome

The project was successfully completed within four days, providing the Pear Tree pub with a durable, hygienic, and visually appealing kitchen floor. Another successful installation by the Zenith Flooring team, reinforcing their reputation for quality and reliability in the hospitality sector.
