

Case Study: Seamless Flooring Systems

The London Edition, London

Client: The London Edition

Contractor: Shepherd Construction

Commenced: February 2013

Completed: 6 days

Area Coverage: 60m²

Project Description

The London Edition is the latest from Edition Hotels which blends groundbreaking innovation, great design, outstanding dining and entertainment with personal, friendly, modern service. Located in the heart of Fitzrovia, The London EDITION preserves the finest aspects of an iconic landmark building, but reinvents the spaces within to create a dynamic fusion of old and new, past and present. The 60 sqm chefs' kitchen looks out into the main restaurant of the hotel where the discerning diners can see all the cooking action through glass doors.

Working with Shepherd Construction, Zenith Contract Services Limited provided a decorative and hard wearing floor suitable for this busy environment. The existing substrate was weak and added to that there was the difficulty of limited access due to the hotel's location in London.

First Maxit Floor 4655 was used to level the substrate. RSL's Decora MS decorative quartz screed was then applied and sealed with 2 coats of RS Screed Seal to provide a seamless, decorative finish.

Products & Systems Used

Maxit Floor 4655, RSL's Decora MS decorative quartz screed, RS Screed Seal
